

I strongly support the creation of a national do-not-call list. I am bothered almost every day by these scam artists and lawbreakers. They constantly find a way around federal regulations to call people again and again. My fax machine at work is jammed with junk faxes. My email inbox is jammed with junk messages. Where will this madness end? This is America and we cannot get rid of these leeches. Please help private citizens rid their lives of this nonsense once and for all.
